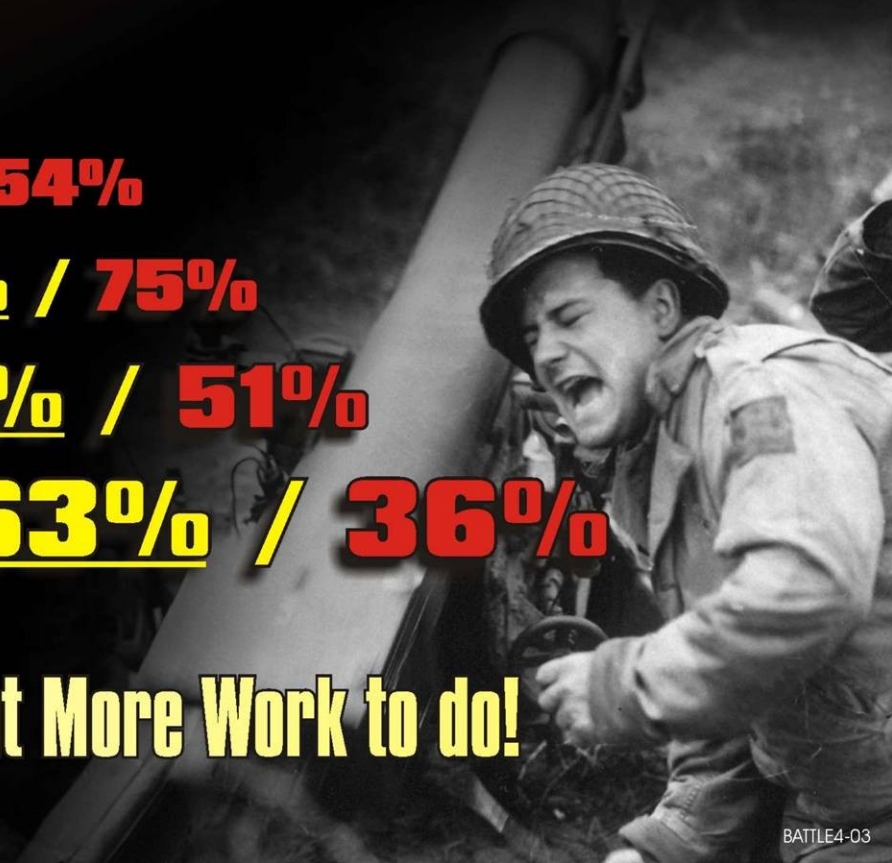
Combat versus Accidents

Combat Losses / Accidents

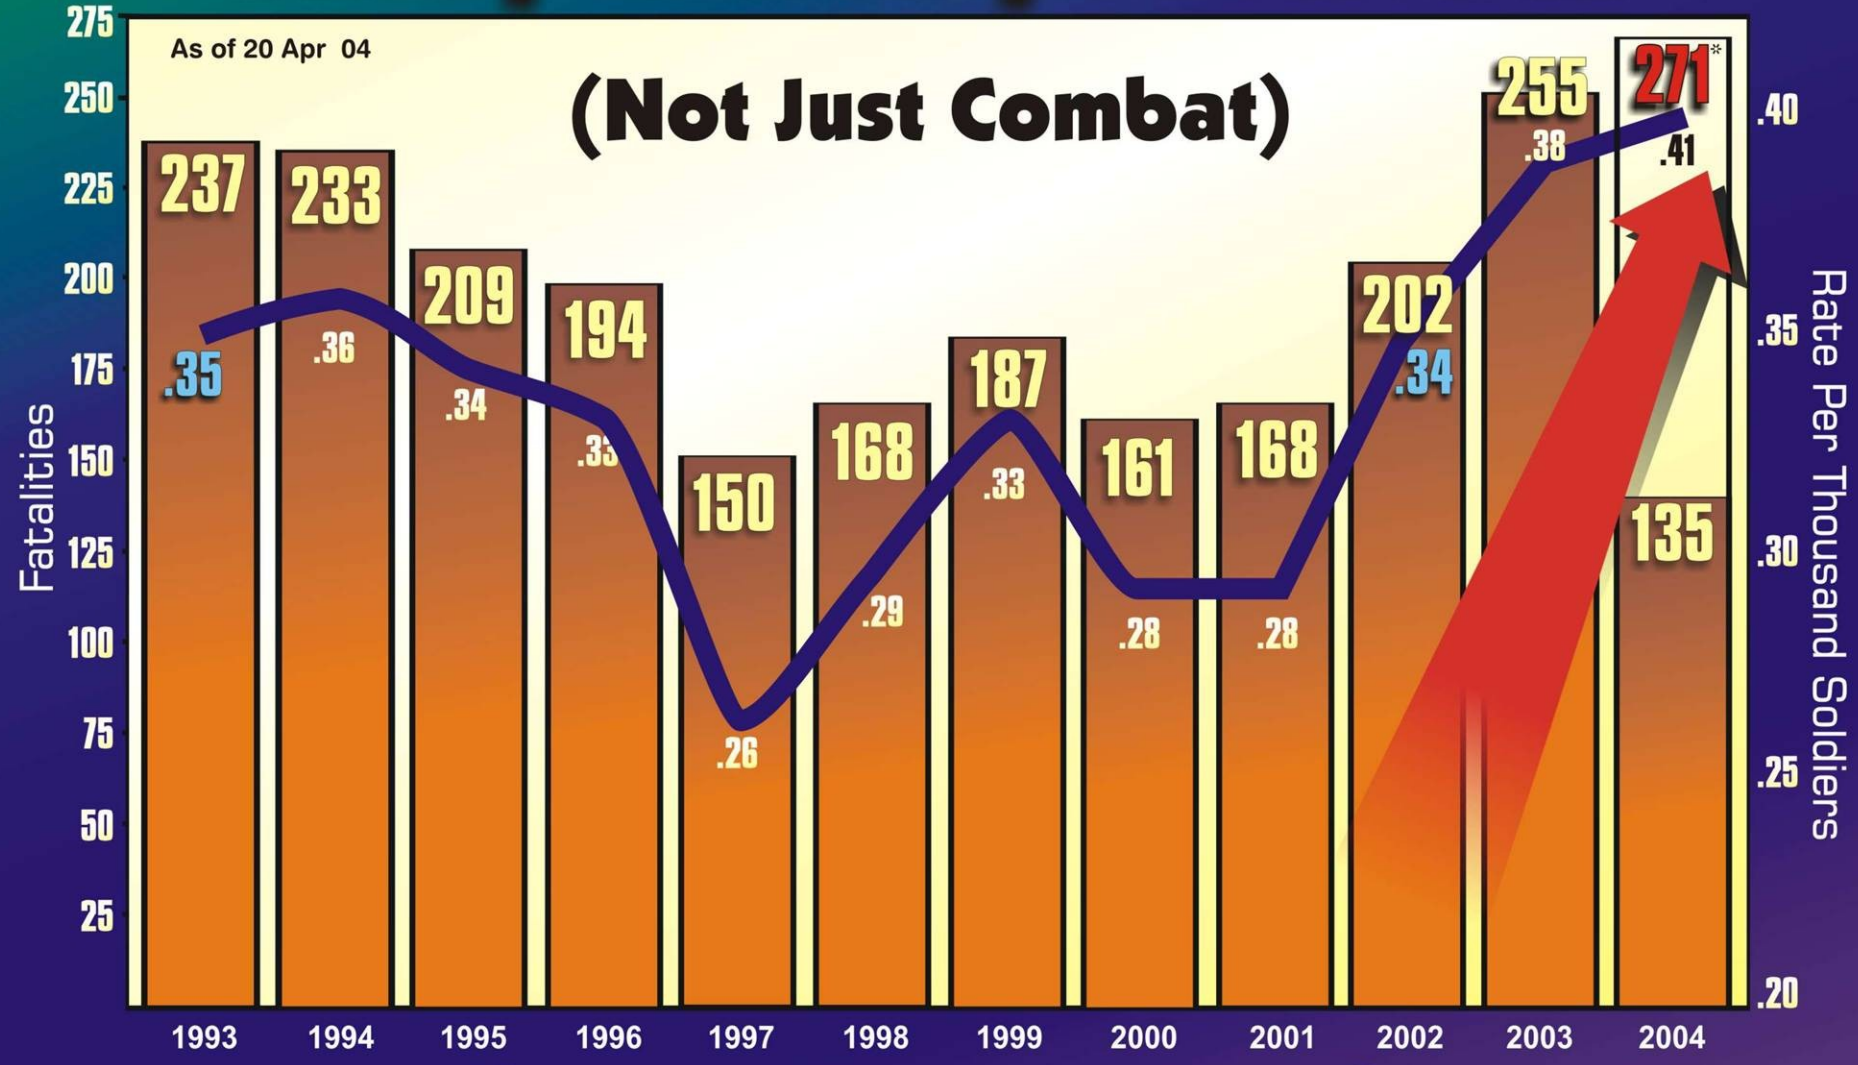
Spanish-American	15% / 85%
WWI	47% / 53%
WWII	43% / 56%
Korea	55% / 44%
Vietnam	45% / 54%
DS /DS	20% / 75%
OEF	48% / 51%
OIF	63% / 36%



Doing Better than Ever Before...But More Work to do!

BATTLE4-03

Army Military Fatalities

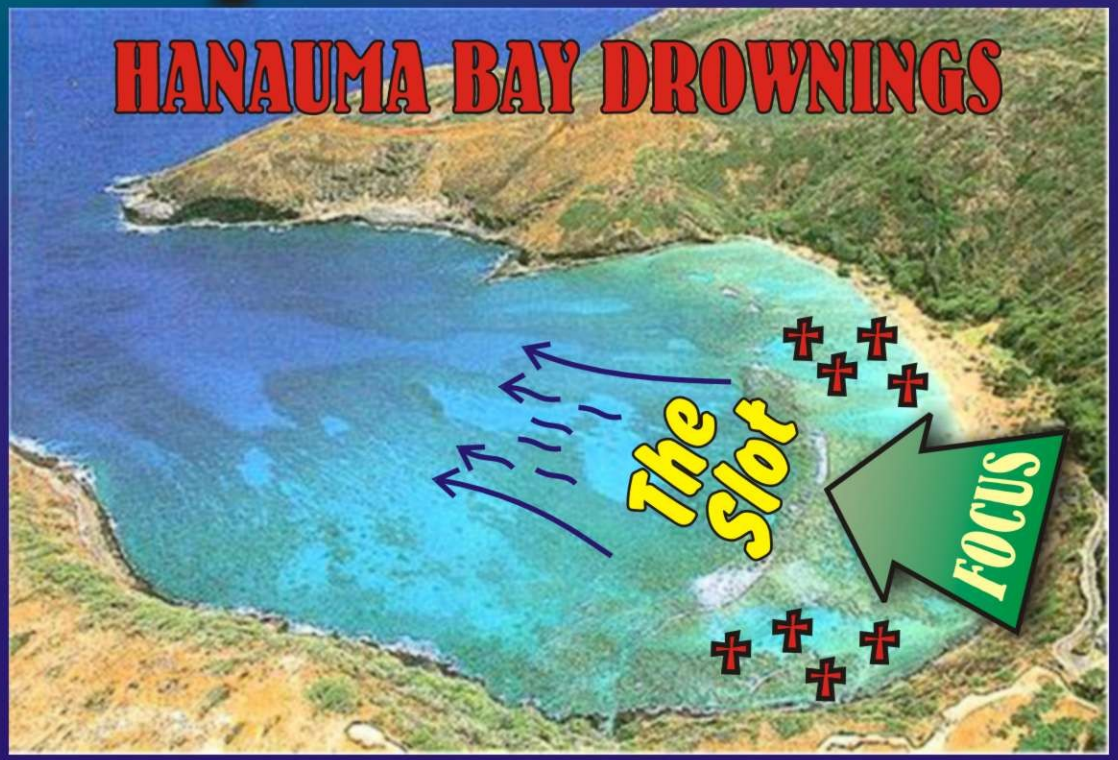


The Arrow Continues to go in the Wrong Direction

ASP4-18

* Projected based on a 5-year historical average of ratio of fatalities through 9 Mar to the entire year

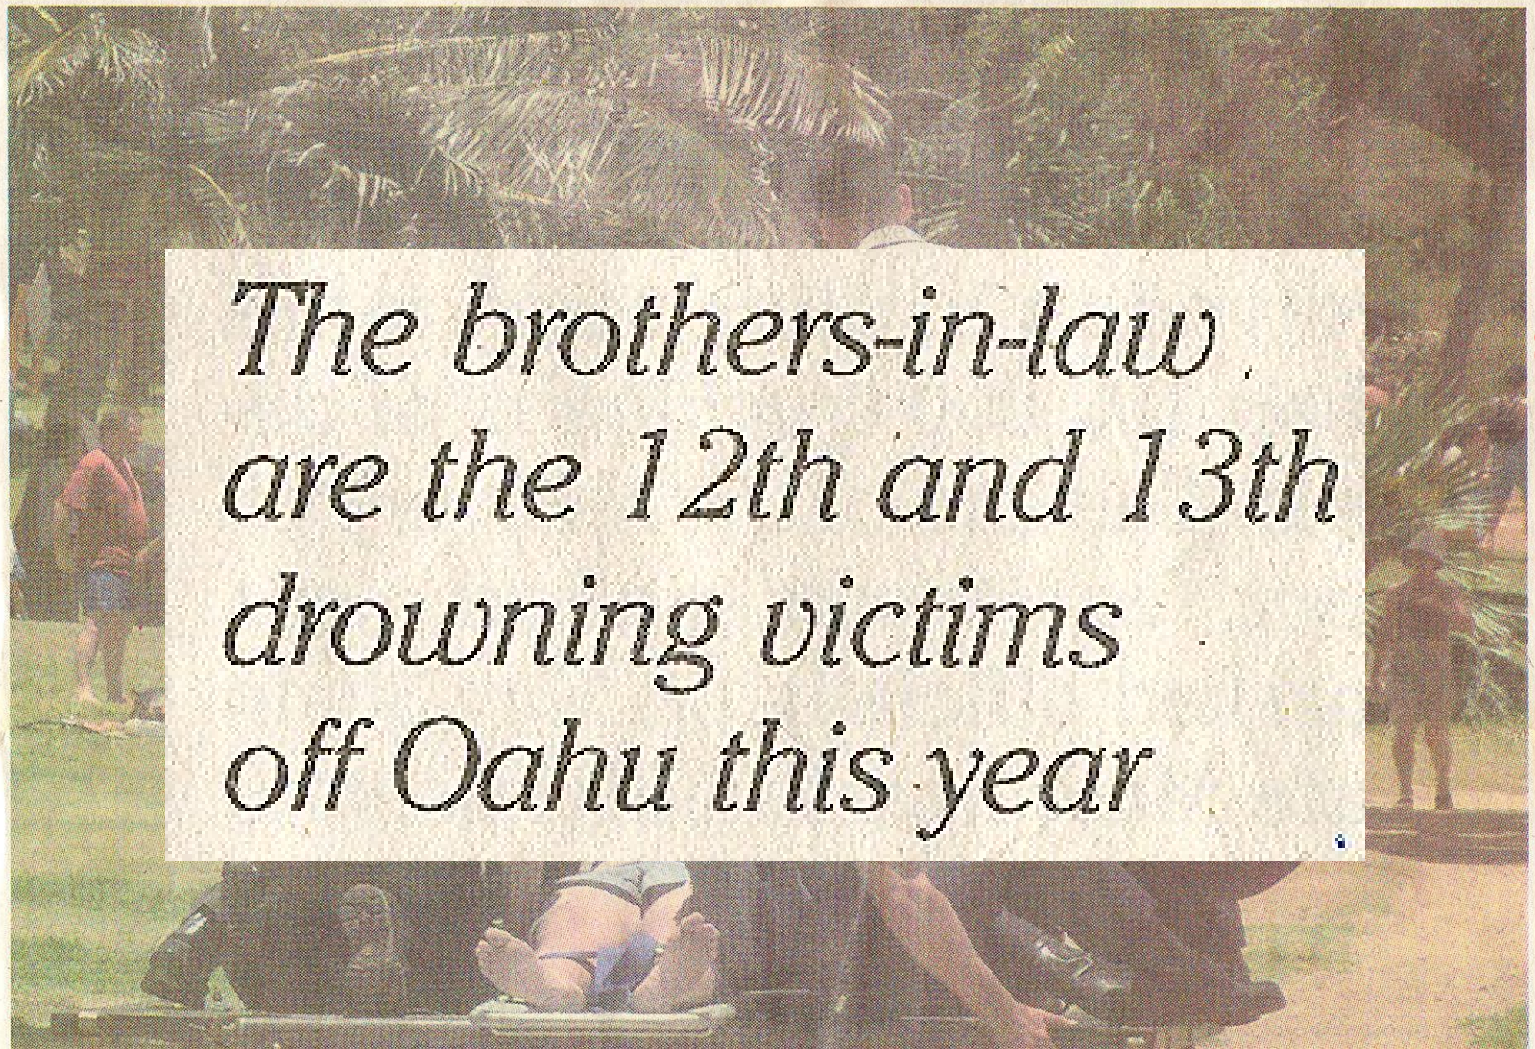
Peripheral Vision



- Attention solves problems
- Problem identification is key
- Must expand peripheral vision
- Sustainment is a challenge

"Our Army at war - a war unlike any we have experienced in our history."

2 visitors from Chicago drown at Hanauma Bay



The brothers-in-law are the 12th and 13th drowning victims off Oahu this year

Uncle Sam Wants You!

Service Members returning from war are at high risk for accidental injury

Read below and find out how you can help.....

During the war, Army buddies watch over each other. When Service Members leave their buddies and return home they will need family and friends to watch over and assist them through what could be a difficult time of readjustment.

How can you help? Easy.....
Let them know you care, and appreciate their service to our country by reminding them to practice safety while they are home.

Why Service Members are at high risk after the war?

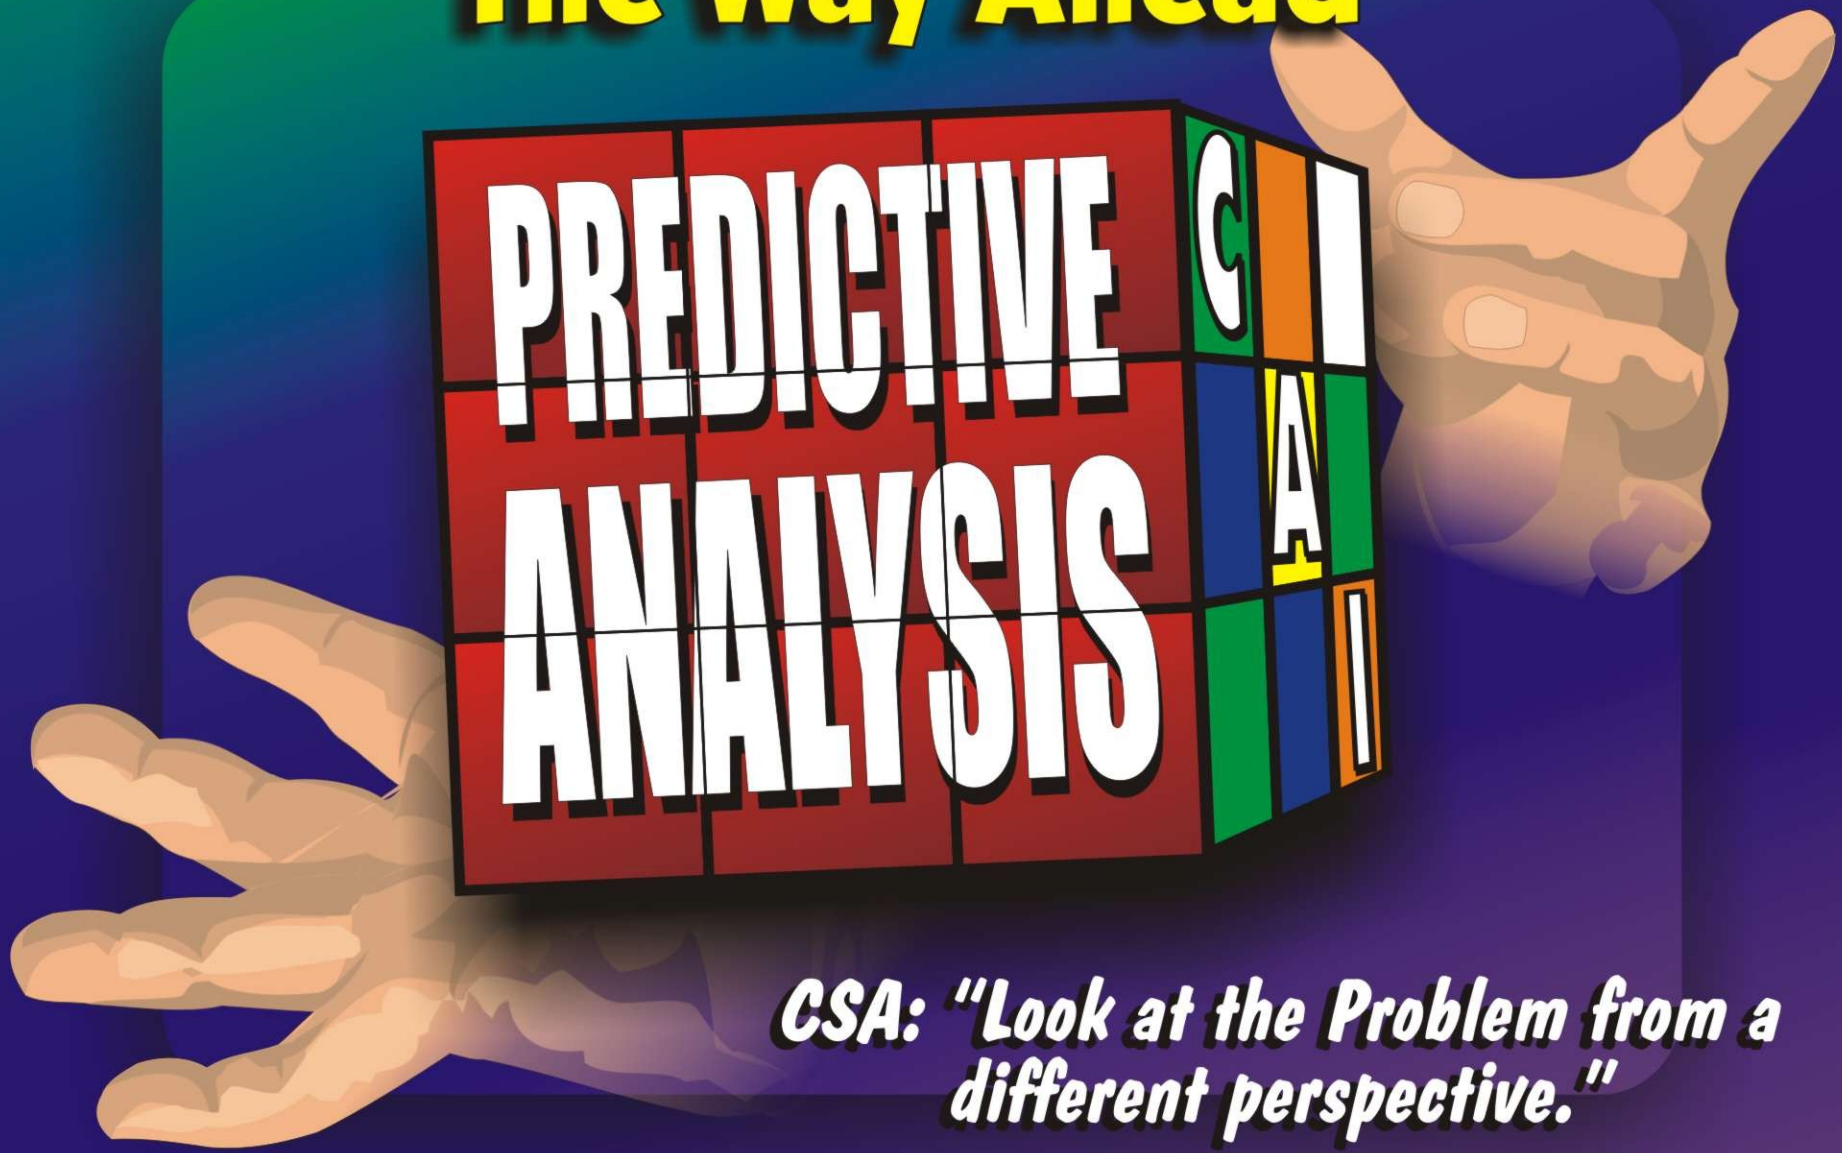
CG4-01B

Your Safety Program & Risk Management Integration

How do you know you're winning?

- Safety emphases is part of in-processing for all Soldiers (Esp. Junior Leaders)
- Safety is embedded into long-term training plans (QTB, Exercise IPRs, etc.)
- Commander's intent is published, repeated and understood
- Risk Management "3-Deep" embedded in planning, training and mission execution
- Junior leaders repeat YOUR words and actions

The Way Ahead



CSA: "Look at the Problem from a different perspective."

Our Army at War =

- Chain of Command & Leadership
- Standards & Discipline
- Enhanced Situational Awareness

Be SAFE!
